

Apprentices and Trainees Data

Background

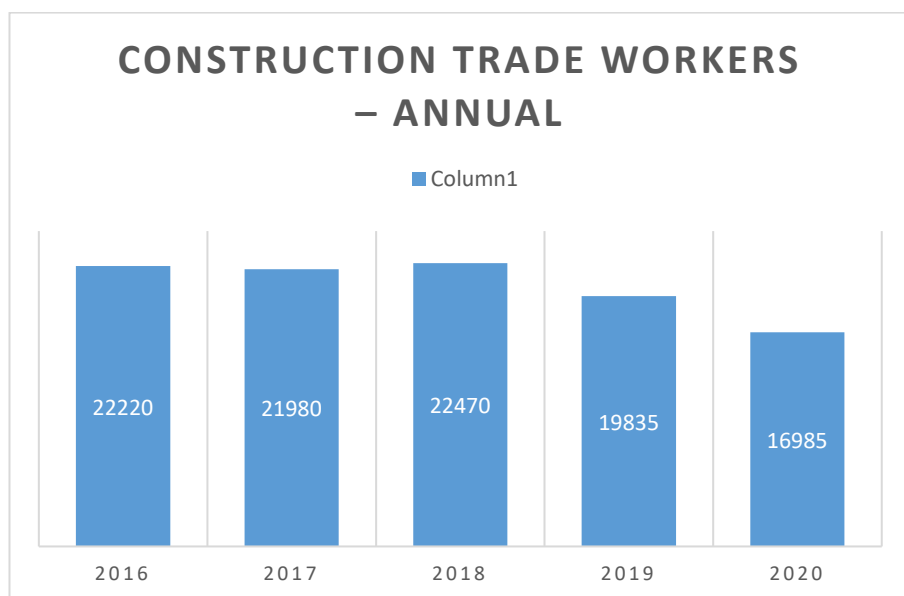

The Civil Contractors Federation National (CCF) sources data on commencements of apprentices and trainees from the National Centre for Vocational Education Research (NCVER). NCVER is the national professional body responsible for collecting, managing, analysing and communicating research and statistics on the Australian vocational education and training (VET) sector. CCF National analyses and re-produces this data to obtain a better national picture of apprenticeship and traineeship activity in the civil infrastructure sector. Further information can be obtained at <https://www.ncver.edu.au/>.

National Apprentice and Trainee Collection

The National Apprentice and Trainee Collection is a publication which provide estimates of activity for apprentices and trainees in Australia. Data are collected from state training authorities on training activity in apprenticeships and traineeships in Australia, including information on training rates and duration of training.

Commencements - Construction Trade Workers – Annual (12 months ending 30 September 2016 to 2020)

2016	2017	2018	2019	2020	2019 to 2020 (% change)	2016 to 2020 (% change)
22 220	21 980	22 470	19 835	16 985	-14.4	-23.6
