WINNERS ANNOUNCED OF 2022 CIVIL CONTRACTORS FEDERATION NATIONAL EARTH AWARDS

Australia's peak industry body for the civil construction industry, the Civil Contractors Federation (CCF), is pleased to announce the winners of the 2022 Civil Contractors Federation National Earth Awards.

The CCF National Earth Awards are the most prestigious awards in civil infrastructure recognising excellence in civil construction across a range of sectors.

The winners were announced at a Gala Dinner on Friday 11 November 2022 at the Hotel Realm in Canberra, where 250 people from across the civil construction industry gathered to recognise 47 finalists, all of whom were category winners at the state and territory level.

"I congratulate all finalists involved in the 2022 CCF National Earth Awards and commend them for delivering civil construction projects to the highest of standards," said Chris Melham, Chief Executive Officer, CCF National.

"All of the projects have demonstrated best practice in their respective areas, including roads, bridges, drainage, rail and utilities.

"I particularly commend our seven category winners, who have been judged the 'best of the best' by our independent judging panel who I also thank for their invaluable assistance.

"I also thank our sponsors - PSC Insurance Brokers, the official insurance partner of CCF National, and the Australian Construction Industry Redundancy Trust," he said.

CCF is proud to announce and congratulate the winners of the prestigious CCF National Earth Awards as follows:

Project value	Winner	Project	Project Description
Up to \$2m	Kentish Council and Treloar Civil & Quarries Pty Ltd	Wilks Road Extension	Improved road access to Lorinna, a small rural community comprising 65 properties situated in North-West Tasmania.
\$2m to \$5m	Select Civil	Avon Dam Road Bridge Replacement	Design and construction of a replacement bridge along Avon Dam Road, providing access to Avon Dam in NSW.
\$5m to \$10m	Rob Carr Pty Ltd and Water Corporation	Gnangara Branch Sewer Section 2	Significant upgrades to the sewer network in Perth's northern suburbs.
\$10m to \$30m	McMahon Services Australia Pty Ltd	The Australian Bragg Centre for Proton Therapy & Research - Civil and Environmental Remediation Works	Site investigations, demolition, bulk earthworks and remediation for the basement and bunker levels of the new \$500 million Australian Bragg Centre in Adelaide's BioMed City precinct.
\$30m to \$75m	Georgiou Group / Brady Marine and Civil Joint Venture	Indooroopilly Riverwalk	Construction of a 790-metre, 5-metre-wide bridge providing a pedestrian and two-way cycle facility over the Brisbane River.
